Employment History

○ March 2021 - Present

Kahn Design | Bradford

Product Manager

My current role at Kahn Design has provided me an excellent opportunity to develop my experience maintaining and managing an E-Commerce website through the Shopify platform, as well as further my knowledge in product development and deployment.

Key Responsibilities:

- Managing product listings on the E-Commerce website via Shopify.
- Implementing site changes through Liquid coding language.
- Working with supply chain and marketing to assist in new product releases.
- Product knowledge and development duties.
- Inventory movement report analysis.
- Supporting the sales team to improve sales revenue.
- Monitoring aging stock lines and developing end of line strategies.

○ March 2020 - March 2021

LTE Scientific | Oldham

Purchasing Manager

My role as Purchasing Manager gave me the opportunity to utilise and expand my skills and experience in Supply Chain and Procurement Management for an extremely busy and demanding manufacturing business.

Key Responsibilities:

- Effective management of stores and purchasing personnel
- Managing and maintaining stock levels through the MRP system to ensure the needs of the business are met.
- Assessing and resolving Quality Control issues through the internal Quality System.
- Managing supplier relationships, negotiating pricing structures and sourcing new suppliers.
- Monitoring and managing KPI's and Audit standards.
- Reviewing stock usage trends and stock forecasting in-line with company requirements
- Liaise with Production and Technical departments with order updates and requirements

Interests

In my spare time I enjoy working on my project car, keeping fit, snowboarding and mountain biking.

○ January 2017 - February 2020

Tesla | Stockport

Parts Advisor

- Managerial duties including new starter training including travelling to new sites and assisting with departmental structuring.
- Monitoring outbound stock orders and updating various areas of the business to ensure lead times are met.
- Optimise stock routing according to ABC analysis.
- Inventory management/planning including distribution planning.
- Analysing usage trends for stock forecasting responsibilities.
- Monitoring and managing KPI's and Audit standards.
- Daily stock takes and carrying out inventory transaction reports when required, including full inventory audits.
- Implementing a new pre-diagnosis procedure to improve parts pre-ordering.
- Introducing a new stock location system and overseeing a complete refurbishment of the parts department.
